**Reviewed by:**

**Lori Simmons, MS**  
Branch Chief, Epidemiology

**December 6, 2022**

During flu season, the Arkansas Department of Health (ADH) produces a Weekly Influenza Report for clinicians. The report provides information on flu activity in the state. The report also compares influenza-like-illness (ILI) in Arkansas to activity in the U.S. ADH receives reports of only a fraction of flu cases since it only requires reports of hospitalizations, deaths, and outbreaks. Therefore, it is important to understand that the information in the weekly update is representative of the timing and location of activity, but it does not reflect the overall burden of disease. It is presumed that there are many more people actually affected than the report shows. Clinicians and policy makers may find the report helpful in terms of communicating to colleagues and patients about the current status of the flu season.

### **Report Key Points:**

- For Week 48, Arkansas reported “Very High” or 12 out of 13 for Influenza-Like-Illness (ILI) activity level indicator determined by data reported to ILINet.
- Since October 2, 2022, over 14,200 positive influenza tests have been reported to the ADH by health care providers. **Please note that reported cases reflect only a portion of the actual numbers of flu cases in the state.**
- Among flu antigen tests this season that can distinguish between influenza A and B virus types in Arkansas, 92 percent were influenza A, and 8 percent were influenza B.
- Over 7 percent of patients visiting emergency rooms this week were there for ILI (Syndromic Surveillance). Over 7 percent of outpatient visits were for ILI (ILINet sentinel providers).
- The average school absenteeism rate last week was 7.5 percent among public schools.
- Arkansas reported 45 influenza-related deaths this flu season, including 1 pediatric death. Of these, 73% are not vaccinated..
- CDC estimates so far this season, there have been at least 8.7 million illnesses, 78,000 hospitalizations, and 4,500 deaths from flu.
- Sixteen (16) nursing homes and other institutions have reported influenza outbreaks this season.
- Nationally, the proportion of deaths reported to the National Center for Health Statistics attributed to pneumonia and influenza (P&I) is above the epidemic threshold this week.

You can report flu year-round and view the weekly influenza report during the influenza season at: <http://www.healthy.arkansas.gov/programs-services/topics/influenza>. You can also access the reporting website directly at: <https://FluReport.ADH.Arkansas.gov>.

## 2022-2023 Influenza Outbreak Response/Epi Report (Week 48: 11/27/2022 – 12/03/2022)

### Death Report for Week 48

- Deaths from all causes: 856
- Deaths due to Pneumonia: 57
- PCR confirmed Flu Deaths: 4
- Death Certificate or Flu Antigen only: 11

### Cumulative Flu Deaths since 10/02/2022

- PCR confirmed Flu deaths: 15
- Death Certificate or Antigen only: 30
- Cumulative Flu deaths: 45

### Total Flu-Related Hospital Admissions

- Cumulative: 749
- Week ending 12/03/2022: 165

### Weekly Arkansas ILI Intensity Level Reported by Sentinel Providers

### PCR Lab Confirmed Influenza Cases

- Total Cases since 10/02/2022: 2,741
- Week ending 12/03/2022: 501

*Reported cases reflect only a portion of the actual numbers of flu cases in the state.*

PCR Tests	Week 48	Cumulative Cases Since 10/02/2022
A+	491	2,645
B+	5	32
Both A and B	1	18
B/Victoria	0	0
B/ Yamagata	0	0
H1N1+	3	35
H3+	1	11
Unsubtypeable	0	0
Total	501	2,741

### PCR Confirmed Influenza Cases since 10/02/2022

Age Groups	PCR+	Hospitalized	Deaths
0-4 yr.	281	13	0
5-17 yr.	745	9	1
18-24 yr.	156	5	0
25-44 yr.	554	57	1
45-64 yr.	566	169	5
>= 65 yr.	438	230	8
Unknown	1	0	0
Total	2,741	483	15

### School Absenteeism\*

Week Ending: 12/03/2022

– Percent Absent: 7.49

– Previous Week: No Report, Holidays

\* Average daily absenteeism for all public schools during this reporting week.

### ER Visits (Syndromic Surveillance)

- **Week Ending: 12/03/2022**

Weighted Average: 7.28%

– Total Visits: 22,048

– Visits with ILI: 1,605

- **Previous Week**

Weighted Average: 8.17%

– Total Visits: 21,868

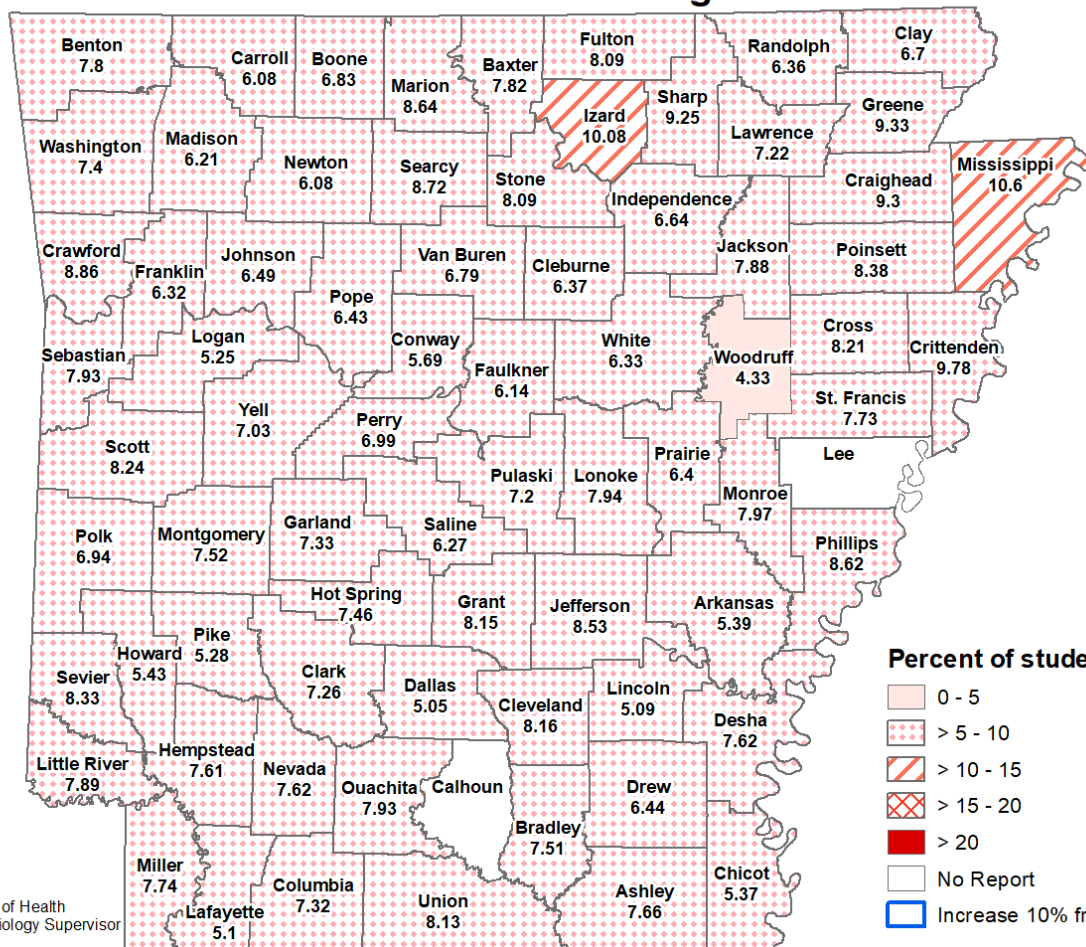

– Visits with ILI: 1,787
